

Laundry Soap

EASY INGREDIENTS- WORKS GREAT

HOMEMADE LAUNDRY SOAP

WWW.FOODPROOD.COM

Notes: I leave a spoon in a sandbox pail with a lid I bought from a dollar store years ago.

I typically grate up 2 bars of soap at a time and leave the remaining soap in a separate container for the next batch.

INGREDIENTS

Arm & Hammer Washing Soda
Borax by 20 Mule Team
Dr. Bronners Pure Castile Bar Soap

DIRECTIONS

Grate the bar of Soap with a hand grater or a food processor with the grater attachment
Measure out EQUAL PARTS of the grated soap, washing soda & borax
Combine and place into a pail, quart jar, etc with a cover (so it doesn't spill)
Use approximately one tablespoon per load

BONUS:

Stain Removing Treatment

Have tough stains? Try this easy and has never failed me treatment

Run your stained area under water to saturate, rub with a bar of soap (I use my homemade lard soap or Dr Bronners' soap), then pour on peroxide. Let sit for a few hours and wash as normal. Voila! I've used this on all colors, all stains (even something oily) and have been successful. If it doesn't work the 1st time try again.
